

Science Educator - Full Time

Summary:

A CVCA science teacher is called to educate and cultivate servants for Christ within his or her science classroom and other interactions with the CVCA student body. Each science educator is responsible for teaching six sections of science classes, collaborating with other faculty in revising and developing the science curriculum at CVCA, and performing any other non-teaching duties as assigned by administration.

Position Requirements:

- Full support for CVCA's mission, vision, and core values
- Passion to teach science in a Christian environment with the mission to educate and cultivate servants for Christ
- A clear desire and ability to teach in a student centered learning environment
- Interest in innovatively and appropriately bringing technology into the classroom to support student learning
- Strong communication skills
- Bachelor's degree in science, science education, or a closely related field
- ACSI certification or ability to obtain ACSI certification in science prior to employment

Ideal Qualifications:

- Graduate degree with at least 18 hours in graduate level science
- State of Ohio teaching certificate, Grades 7-12 science
- Comprehensive content mastery ranging from middle school through AP science.
- Demonstrated experience in innovatively and appropriately bringing technology into the classroom to amplify and accelerate student learning
- Ability and interest in involvement in the CVCA co-curricular program (related experience preferred).

Note: While a teacher with comprehensive science content mastery and 7-12 certification is desired, teachers with more narrow content mastery or certification (e.g. Biology/Life Science only, 9-12 certification, etc) are encouraged to apply.

Interested candidates should send resume, philosophy of Christian education and personal Christian testimony to Jeanie Micale, jmicale@cvcroyals.org.
