

WHAT TO DO IF MY CHILD BECOMES ILL

CVCA TOGETHER PROTOCOLS FOR SUCCESS

■ Do not come to school if you have any **ONE** of the following:

- Body temperature of 100°F or higher
- Shortness of breath any time in the previous 24 hours
- Nausea, vomiting, or diarrhea
- Loss of taste or smell
- Headache
- Sore throat
- Difficulty breathing
- Persistent cough
- Chills
- Body aches
- Runny nose or congestion

■ Please report your child sick by calling the Main Office at 330-929-0575.

- If your child can participate in class virtually, please call the Main Office to inform them your student will not be in attendance but will be signing on to distance learning.
- Your student will be able to log on to class through CANVAS as instructed by their teachers. Parents are encouraged to sign up on Canvas to stay up to date. Find out how [HERE](#).

■ When can my student return to school?

- **If you have tested positive for COVID-19, you can return to CVCA after:** You bring a doctor's note specifically indicating that you are COVID-free and safe to be on campus.
- **If you had/have symptoms but have not had a test or are awaiting test results to determine if you have COVID, you can return to CVCA after:** You have completed one of the following options:

OPTION 1

At least 10 days have passed since your symptoms first appeared

AND

All symptoms have improved (*for example, cough or shortness of breath have improved*)

AND

You have had no fever for at least 72 hours (*that is three full days of no fever without the use of medicine that reduces fevers*)

OR

OPTION 2

You bring a doctor's note indicating that the cause of the symptoms is due to issues other than COVID-19 and specifically indicating that you are safe to be on campus.

■ What about the other students (siblings) living in my household?

If you have been exposed ("exposed" or "exposure" being defined as maintaining less than 6-foot distance for more than 15 continuous minutes or as communicated by the Summit County Health Public Department) to someone with COVID but remain symptom free, you may return to CVCA after meeting the Quarantine Guidelines found at: [cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html](https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine.html)

■ CVCA will communicate with the Summit County Public Health Department when a student or staff person has tested positive for COVID-19 and will fully cooperate with their guidance. When it becomes known that a student is showing symptoms and has tested positive the following protocol applies:

- CVCA will contact the family in order to verify if they have been in contact with both their doctor and the county health department (and been tested).
- CVCA will contact the Summit County Public Health Department and cooperate in contact tracing. Summit County Public Health Department will contact potentially exposed students' families per their policies.
- This does not mean a student is automatically quarantined/isolated if he/she was in the same class or on the same team as someone who tested positive (see "exposure" definition above).
